METHODIST MINISTERS GET THEIR APPOINTMENTS FOR '90-'91.

Bishop Foster Makes the Announcement at the Last Day's Session of the Rock River Conference—The Usual Amount of Dissatisfaction Over Them, but No Complaints Are Heard—The Districts Undergo a Decided Change—List of the Appointments.

AURORA, Ill., Sept. 30.—[Special]—The Rock River Conference concluded its labors today. After the transaction of what routine work remained over from yesterday and the passing of thanks to those who have contributed towards the comfort and welfare of the members of the conference the Bishop presented the list of appointments. The Bishop, before reading the names, said that the appointments had always been to him a source of joy and vexation. Joy because it was his duty, vexation and sorrow because he knew he was giving offense to some. He asked all the preachers to bear with him and leave the conference prepared to do what their superior officers had ordered them to do, and let their thoughts be of God and his work and not of themselves and their comfort. One of their former Bishops was in the habit of having his horse ready at the church door so as to get away as soon as the appointments had been announced. He did not intend to do that, but he meant just the same as the other Bishop, which was to listen to no complaints after the names had been read. The Bishop was much affected, and seemed to take the responsibility of his position much to heart. After such words by their Bishop it seemed as if there should be no complaints, but many were the murmurings and fault-findings. The districts have never been so changed before, and the elders express a surprise that there is not more dissatisfaction than there is. The following is the list of appointments:

Will Contest the Will.

PITTSBURG, Pa., Sept. 30.—Proceedings have been entered in the County Court to contest the will of John Scott, deceased President of the Allegheny Railroad company. The estate is valued at over $500,000, and it is alleged by a son that the document probated was not the last will and testament of his father. According to the will the widow is entirely ignored and three sons are bequeathed $1 each.

MUSICAL INSTRUMENTS.

PIANOS FOR EVERYBODY. PIANOS FOR EVERYBODY. PIANOS FOR EVERYBODY.

In anticipation of a very large fall and winter business we have ordered and are now receiving the largest and most varied assortment of new pianos ever shown in Chicago. Our exhibit includes the following well-known instruments:

KNABE, KROEGER, FISCHER, NEW ENGLAND, and PEASE,

and the manufacturers have fairly surpassed themselves in the pianos sent us.

You will find our prices the lowest consistent with quality, and our terms so reasonable that no one will have an excuse for remaining longer without a piano.

In the matter of bargains this week we will offer the following:

UPRIGHTS.

2 Fischers, 7⅓ octaves, in excellent condition, each $250
1 Steinway, 7⅓ octaves 350
1 Steinway, 7⅓ octaves 350
1 Steinway, 7⅓ octaves 400

and an assortment consisting of Knabe, Chickering, Gabler, Kroeger, Washburn, Lyon & Healy, Pease, New England, and Lester, ranging in price from $150 up.

SQUARES.

We have a number of very good bargains in square pianos, such as

Chickering, Steinway,
Haines, Hale,
Gravesteen, Grape & Kindt,
and others.

FINANCIAL.

Clearings at the principal cities of the United States yesterday and a week ago were:

	Sept. 30.	Sept. 23.
New York	$149,612,570	$149,612,570
Boston	14,351,581	14,351,581
Chicago	14,537,000	12,671,000
Philadelphia	12,253,990	13,510,006
St. Louis	3,535,896	3,845,349
Baltimore	2,197,171	2,315,171
New Orleans	1,893,355	1,495,961

New York exchange was quoted as follows yesterday: Chicago, 80@70c dis; Boston, 15@20c dis; St. Louis, $1.00 dis.

There is no good evidence that the beginning of the new month is to bring an advance in bank rates nor any closer money situation. Board of Trade demands are comparatively light and demands in other directions have been checked by the snug situation that has prevailed all the fall. Deposits are running lower. It seems probable that the local money situation will remain for some time in about the same condition it is now. There is likely to be no squeeze nor does it seem probable that there will be any improvement immediately.

The sterling exchange market was excited yesterday, the cause being a flurry in the London money market. It will be remembered that the Bank of England rate was advanced last Thursday from 4 to 5 per cent. The rate of discount in the open market yesterday went up to 5¼ per cent. In consequence of that it is thought that the bank rate will tomorrow be advanced to 6 per cent. It is evident that some New York firms were in a great hurry to remit funds Saturday and had to have them regardless of rates. Cables went to 487¼. Demand advanced from 485¾ to 486¾, the closing quotations here varying from 486@486¾. Sixty-day bills were but little affected. Quotations were 480¼@481¼.

The scarcity of small bills is more pronounced here than it has been at any time before during this season. A great deal of gold is having to be sent to the country though the country subjects to receiving it and calls loudly for small bills. The demand on the Treasury Department for notes of small denominations is urgent, but there are but few notes forthcoming. At the Treasury Department in reply to inquiries as to why small notes are not issued under the new Silver act the statement is made that the Treasury was obliged to issue notes of large denominations under the new Silver act when it first went into effect because of the short time allowed for preparing plates from which to print and because a given sum in large denominations could be much more easily printed than in numerous notes of lower denominations. The new plates are now being issued as fast as printed in payment for purchases of silver, but they can be supplied only to the amount of the purchases. The Bureau of Engraving and Printing is working to the full extent of its force to prepare the plates for the $1 and $2 notes under the new law, but it will be at least thirty days before any of them can be paid for silver.

Business at the Stock Exchange dropped back to dullness again. Prices declined. Calumet Dock, which closed Monday at 78¼, fell back to 77¾, and closed at 78; buyer 30. West Side was also both dull and lower. It opened at 135, with premiums of from ½ to 1 point remaining quoted. The feature of the bond market was the offering of $1,000 Packing and Provision company 6s down to 95 before they found a taker. Gas bonds show no recovery. Gaslight 6s were offered freely at 86¾. The market was entirely devoid of news affecting values and actual outside orders seemed few. The list of sales follows:

Wall street had a thoroughly distributed tip that the Chicago, Burlington and Quincy statement of earnings for August, which is expected in a day or two, will be decidedly unfavorable. Officials in the traffic department here say they do not expect a bad August statement unless it is made to include large expenses not connected with the traffic movement. it is said that the bad August statement that are being made do not reflect the present condition of the Western railway situation, for the reason that a general advance in rates went into effect Aug. 25, and that lumber rates were advanced Sept. 10.

H. P. Darlington & Co. say: "One of the most encouraging reports from the copper mines at Grand Marais. Frank Floyd has just returned from there, and is very enthusiastic over the prospects.

The directors of the Western Stone company yesterday declared a dividend of 2½ per cent. It is payable Oct. 15 to stockholders of record Oct. 10.

NEW YORK.

New York, Sept. 30.—[Special.]—The dash by the bears just before the close yesterday seemed to have nerved the bulls to an extra effort this morning. They forgot their fear over night and considered they still held the most advantageous ground. They began operations today by advancing about everything on the list several points to the start and then proceeded to clinch matters by heavy buying, which scared the bears into covering. Between the two elements the market is bare to-night of two full grain. Sugar, Chicago Gas, and Rock Island were prime favorites. The former increased its gain of yesterday by a still further advance of two full points to 86. Each of the others bettered its condition by a point before noon. Lackawanna was not so much of a feature during the morning as it was yesterday, but it gave evidence that Deacon White had not yet completed his deal, and still held the whip over the market in his pet stock. He advanced it to 141¾, or ¾ above the closing, and held it firm at that figure during the morning. Gould's hand was thought to be exposed in the course of Missouri Pacific, which went up to 70¾, thus recovering the full amount of the dividend as he had promised. The Villard people and the Vanderbilt stocks were not neglected by friends, who were after Lake Shore and North American in sufficient force to put both those stocks up ¾. Atchison, Reading, and the Granger were strong, and Union Pacific seemed to have recovered from the effects of the unfavorable August statement, for it advanced ¾, to 55¾. Silver was the one weak spot in the list, and was knocked off to 109¾. It acted, however, independent of the market, and had little influence on other stocks.

As a rule the market retained its strength during the first hour of the afternoon, and in some instances increased its lead, as in North American. Burlington and Illinois Central were exceptions, however, and suffered from the attacks by the bears, who were encouraged by the unfavorable showing of the latter as to August earnings and the unfavorable report in the former for the same month. Burlington was hammered off a point, to 95¾, and Illinois Central, which fell from 106 to 102¾ this morning, was unsteady at 103¼ at 1 o'clock. The determined drive at Burlington and Quincy during the afternoon had the effect of retarding the upward movement which set in so boldly this morning. Burlington was knocked off ¾ from its highest point, the opening, but in spite of its weakness the rest of the list yielded but little and closed at a gain of ¼@1¼ over yesterday's last prices.

Money on call easy, ranging from 3@6 per cent; last loan 3½; closing offered at 3. Prime mercantile paper, 4½@5. Sterling exchange quiet, but firm, at 481¼ for 60-day bills and 485¼ for demand.

The total sales of stocks today were 147,972 shares, including: Atchison, 12,000; Lackawanna and Western, 10,700; Louisville and Nashville, 5,100; Missouri Pacific, 4,250; North American, 5,300; Northern Pacific, preferred, 3,100; Reading, 9,300; St. Paul, 1,970; Union Pacific, 16,510.

GOSSIP ON 'CHANGE.

The leading produce markets were active, quite sensitive, nervous, and higher. Trading was again largely local in its character, though quite a number of outside and foreign orders were filled. The weather in the Northwest was brilliant as it has been for the last week, and in the corn belt it was cloudy and dry. The signal service predicts continued fine weather.

On the curb puts on December wheat sold at 99¼@99¾c and calls at $1.01; puts on May corn sold at 50¾c and calls at 51¼c.

According to the blackboard report there was an entire absence of export movement at New York of wheat, corn, oats, rye, and barley during Monday.

To offset in a measure Hutchinson's persistent buying of May oats Rosenbaum entered the market as a rather free seller; the offerings of the crowd kept the price below all day.

Hutchinson was feeling good over his marked victory over the bear crowd. "This is low day," he remarked to two friends, "and marks the turn which shall carry the price to $1.05 for December."

The traders who sold corn calls Monday night at 50¼@50¾c practically went short of corn at that price and yesterday wished they hadn't. The spread between puts and calls for May corn was but ¾c Monday night and that fact alone helped put the price up.

Taylor Bros., winter wheat millers of Quincy, say that a cause for the present quietude in the trade for local account is the fact that dealers' stocks, which were materially increased in August, are not yet at a low point and that until the position of wheat is a little more settled there is a disposition to hold off. Mr. Taylor considers prices low enough on both wheat and flour.

"The shortage in the winter wheat crop is beginning to show itself in various ways," said a close observer of the markets. "One of them is that New York millers are buying on this market. Yesterday and today 95,000 bu of spring wheat—most of it, or all of it, in Seavers' elevator—were sold for shipment to the mills in the interior of New York. Millers in Ohio and Indiana tell me that they have not turned out a barrel of all winter wheat flour this year; that they have winter wheat that is plump and full weight that cannot be used because it has so much smut in it; and plenty of wheat that is not smutty but cannot be used because it is too light. They have been buying here during the last two days. Milwaukee took 40,000 bu of spring wheat here today. Duluth with all its receipts can't get the fine wheat it wants, and there was a sharp advance at both these points today. Look at the quantity of wheat at Buffalo, New York, afloat at New York, and afloat on the canals and lakes. Saturday it aggregated 3,455,900 bu, against 7,575,200 at the corresponding date a year ago. There is a difference of over 4,000,000 bu. Millers in the winter wheat districts are mixing their wheat, the greater percentage being spring, and when I asked one of them if his customers would stand it after having had winter wheat for so long he replied that he hadn't turned out a barrel of winter wheat flour in months and that they had all become used to the new flour and liked it. Look at St. Louis' receipts today—17,000 bu wheat. How long is that going to last? You are not piling up any surplus at that rate. Minneapolis wired that Illinois millers were up there buying wheat and that every car of low grade that was offered to them was accepted. Those Northwestern receipts cannot keep up forever and there seems to be little trouble getting rid of them. Higher prices have got to come."

THE MARKETS.

Flour showed little change, although there was a better inquiry from exporters. Minneapolis reported a good demand on domestic account. Local dealers worked 1,000 sacks of winters for export and 2,000 sacks on New York account.

Wheat bulged rather unexpectedly yesterday, without any really strong news from the outside, and caught a good many of the boys napping. Hutchinson was the principal cause of the advance, and he was helped in his operations by the peculiar condition of the market. Since passing the dollar mark on the recent decline there has been little long wheat out. Holders had become discouraged at the draggy condition of affairs and had closed out and were waiting to see what would turn up. The local crowd went on selling. On any rallies recently the shorts always found plenty of long wheat offering when they bid for it. But it was different yesterday. When Hutchinson and a few other well known traders began buying rather freely the crowd sold to them at first, then grew nervous as the price failed to show any downward tendency, wavered, and then turned in to cover. But sellers were few. The long wheat was not there for them to take, and they soon had the price above $1.00. Outside influences were beautiful. The receipts at Minneapolis and Duluth—716 cars—were liberal but not excessive. cables were dull and heavy, and there was an increase of $1,500,000 bu in the English visible supply. There was also an increase of 15,000 bu in the quantity of wheat on passage to the United Kingdom. But none of these had any material effect on the bears. They were badly scared. Hutchinson bought freely at Eastern points as he did here. The only "sensation" of the session was the "war news" from New York. It may have helped the advance some, but those who saw the weakness abroad and knew that London was selling wheat in this market paid no attention to it. Late cables noted a better demand for cargoes off coast. December wheat opened at 98¾c, ¾c above the closing of the previous day, advanced to 99¾c, eased off to 99¼c, reacted to $1.00¾@1.00¾c, fell back to 99¾, improved to 1.00¾c, declined, fluctuated up and closed at $1.00¼@1.00½c bid. Sales in store and to go to store were made at 88¼@89c for No. 2 Turkish, and 96¼@97¼c for No. 2 spring. Free on board lots of No. 4 red winter sold at 86@89c, No. 3 do at 89@93c, and No. 3 spring at 88@91c. Total cash sales about 76 cars and 5,000 bu.

The strength in corn was due largely to buying by Hutchinson, though Boyden and Bartlett-Frazier were also buying freely on outside orders. St. Louis was one of the points from which the buying orders came. The reports of damage continue to come in and traders are deterred from going short to any great extent. Cables were dull, domestic markets strong. Trading was chiefly in December, which opened at 50¾@50¾c, advanced to 51c, eased off to 50¾c, improved to 51c, and closed at that. Sales in store and to go to store were made at 48@48¼c for No. 2, 48¾@49c for No. 3, 47¾@48c for No. 3 white, 47¾@47¾c for No. 3, 47@48c for No. 3 white and, 48¼@48¾c for No. 3 yellow. Sample sales were at 47@48c for No. 4 mixed and 48@48¾c for No. 3 and No. 3 white. Total cash sales about 416 cars and 36,000 bu.

Oats were ¼@¾c higher, with the speculative trade chiefly in May, though there was moderate interest in October. The large receipts, with 411 cars posted, did not affect long futures, though September sold off in an uneventful manner, with light trading at 38¾@38¼c, and offers to sell September and buy October at an even figure. This month closed ¼c higher, at 38½c. May opened steady at 41¾c, sold at 41¾c, and owing largely to liberal buying on the part of Hutchinson prices were advanced to 41¾c; near the top there was selling, led by Rosenbaum, and the market weakened to 41¾c, finally recovering to 41¾c and closing quiet. No. 2 regular sold at 38@38¼c, and samples were plentiful and ¼c higher. Free on board lots sold at 37¾@37½c for No. 4 mixed, 37@38½c for do white, and 38½@40¾c for No. 2 white. Total cash sales about 300 cars.

Rye was firmer in tone in sympathy with wheat, there also being a fair inquiry for futures, partly in exchange; the cash supply proved small, with only 8 cars reported as received. October sold at 84¾@85¾c and December at 81¾@81¾c, closing at the fractional advance; changes were made at 2@2½c difference. No. 2 to go to store sold at 79½c and by sample at 81@81¾c. Total cash transactions about 7 cars. Barley was moderately active at the recent slight decline. The sample supply was liberal, though smaller than on the previous day, and there was a good demand for bright and heavy lots across the 3bs. Free on board sales were at 65@72c for No. 2 and 50@66c for No. 4. Total about 117 cars. A car of No. 2 sold at 75.

Provisions were more active and showed an improvement in prices due to the light receipts of hogs. The orders from outside points were more numerous than for some days, and the short interest was inclined to cover. At the advance there was some realizing by the longs. Singer and Mitchell were among the shorts who covered on pork, and there was a good deal of changing of contracts in January. Hutchinson, Wolff, and Armour were large buyers of lard and Fowler was a seller. January pork opened at $11.65½, declined to $11.57½, declined to $11.71¼, improved to $11.80, fell off to $11.72½, reacted to $11.85, and closed at that. Cash pork was dull and nominal, according to sales. January lard opened at $6.47½, improved to $6.52½, eased off to $6.50, and closed firm. Cash lots were $6.47½. January ribs opened at $6.10, advanced to $6.17½, declined to $6.12½, and closed at that, with cash l
